

Achievement of students of GMERS Medical College Valsad in STS 2015

The Indian Council of Medical Research initiated the Short Term Studentship Program (STS) in 1979 in order to promote interest and aptitude for research among medical undergraduates. The main objective of this program is to provide an opportunity to undergraduate medical students to familiarize themselves with research methodology and techniques by undertaking independent projects.

In STS 2015, two such research projects were selected from our college as per below mentioned details.

Sr. No.	Student's name	Batch	Guide's name , designation	Project title
1	Drashti Shah	3	Dr Alka Nerurkar Professor & Head, Dept. of Microbiology	Prevalence of extended spectrum beta lactamase in gram negative bacilli in a tertiary care hospital from various clinical isolates
2	Viren Solanky	1	Dr Priti Solanky Assistant Professor, Dept. of Community Medicine	A comparative study of social beliefs and health facilities utilization among tribal and urban population of Valsad district

These students have sincerely worked under the proficient guidance of our faculties to complete the research projects in time and have been eligible for certificate and scholarship in STS 2015 as their completed projects were approved by ICMR.

Project no. 1 has already been published in a reputed journal of Microbiology and second project is under publication.
